

K-Love has been a very positive presents in Carlsbad, NM. Any positive to a community helps to build a stronger more productive society. I love seeing K-love bumper sticks on local cars. I believe that K-love is one of the best Christian radio stations on the air. One of the reasons is that is commercial free. I also listen to our local station K-Dove, but the commercials are a little frustating, when there is a station that does not have commericals. I support K-Love financially each month with great pride and love. Please help keep our station on the air.
